KILIMANJARO VIA  
LEMOSHO ROUTE WITH  
KOSSOVO CAMP**

# Climbing Kilimanjaro via Lemosho Route with Kosovo camp

**Duration:** 8 Days / 7 Nights

**Type:** Private Safari

**Main Focus:** Adventure

**Country:** Tanzania

The Lemosho Route is one of the most scenic and well-balanced routes on Mount Kilimanjaro, offering excellent acclimatisation and a high summit success rate. The journey begins on the western side of the mountain, passing through lush rainforest before crossing the expansive Shira Plateau and gradually traversing toward the eastern side for the final ascent to Uhuru Peak (5,895m).

This route is known for its diverse landscapes, ranging from dense forest and moorland to alpine desert and glacial terrain. Climbers are rewarded with breathtaking views throughout the trek, including the Shira Plateau, Lava Tower, Barranco Valley, and the Southern Icefields near the summit.

A key highlight of this itinerary is an overnight stay at **Kosovo Camp (4,800m)**, a high-altitude camp located just below the summit. This strategic stop enhances acclimatisation and significantly shortens the summit push, allowing climbers to reach the crater rim in approximately one hour. This increases comfort and improves the overall summit experience.

The route typically takes **8 days or more**, following a “walk high, sleep low” acclimatisation profile to maximise success rates and ensure a safer ascent. After reaching Uhuru Peak, the descent is completed via the Mweka Route, offering a direct and efficient return through the rainforest zone.

Due to its gradual ascent, stunning scenery, and improved acclimatisation profile, the Lemosho Route with Kosovo Camp has become increasingly popular among climbers seeking both challenge and a higher chance of reaching the summit.
